PROFESSIONAL SUMMARY

Senior Mobile Engineer with 14+ years of experience, focused on architecture modernization and performance optimization for high-growth fintech platforms. Strong expertise in React Native and TypeScript, driving cross-platform mobile strategy across iOS and Android, and delivering high-performance applications with seamless native integration. Skilled in Kotlin, Jetpack Compose, Kotlin Coroutines, and modular MVVM architectures, with a focus on scalability, testability, and lean app size. Recognized for reducing technical debt and scaling resilient mobile systems.

WORK EXPERIENCE

Senior Mobile Engineer Questrade Financial Group • CALGARY - CAN • MAY 2026 – PRESENT

• Joined Questrade Financial Group's Digital Investing Engineering team, contributing to Questrade's mobile trading and investing platform serving Canadian investors.
• Deliver features across Android, iOS, and backend using React Native, TypeScript, and NestJS, collaborating with backend, UX, and QA in an Agile SDLC.
• Use Claude Code and Cursor daily for code generation, review automation, documentation, and workflow automation, accelerating delivery across the mobile stack.
• Drive app-wide improvements including UI facelift initiatives and architecture modernization efforts, raising code quality and maintainability across the platform.

Senior Mobile Engineer Neo Financial • CALGARY - CAN • SEPTEMBER 2020 – APRIL 2026

• Helped Neo Financial become one of the fastest-growing companies in Canada, achieving #1 on The Globe and Mail's 2024 Growth List.
• Enhanced onboarding experiences, improving project growth and retention.
• Led the migration from Fragments to Jetpack Compose, boosting customization, testing, and performance.
• Supported the strategic integration of React Native to expand the mobile technology stack across the organization.
• Contributed to new features, reduced technical debt, and provided mentorship as a code owner and technical approver.

Senior Android Developer Itau Bank • SAO PAULO - BRA • MARCH 2020 – SEPTEMBER 2020

• Supported Itaú Unibanco, the largest private bank in Latin America with assets over $555 billions, to modernize its mobile app.
• Played a key role in modernizing the bank's mobile app architecture as a Senior Android Developer.
• Implemented strategic modularization using MVVM, introduced a custom design system, and improved performance by reducing app size.
• Improved app security and dependency injection by implementing Proguard and Dagger, enhancing modularization and maintainability.

Senior Android Developer LETSBANK (former SmartBank) • SAO PAULO - BRA • AUGUST 2019 – MARCH 2020

• Enhanced app functionality using advanced Android and Kotlin skills.
• Strengthened financial and fintech knowledge, bolstered app security, and expanded test coverage.
• Collaborated with cross-functional teams to align with company objectives.

Lead Mobile Developer Ubby Inc. • SAN MATEO - USA / SAO CARLOS - BRA • MARCH 2017 – FEBRUARY 2019

• Developed blockchain-based cashback solutions at Ubby Inc. as first Android developer, designing app architecture and bridging co-founders and developers for smoother problem-solving and strategic planning.

• Worked as blockchain developer for Like Protocol (Ubby Inc.), conducting Ethereum research, training developers in smart contracts and enhancing the platform through smart contract innovations and reputation system development.

Team Lead and Mobile Developer Monitora Soluções Tecnológicas • SAO CARLOS - BRA • DECEMBER 2015 – MARCH 2017

• Advanced from Android developer to leadership roles, mentoring and coordinating teams across Pakistan and Malta.

• Alongside deepening my Android expertise, I expanded into iOS development with Objective-C and Swift, demonstrating a commitment to mobile innovation and cross-platform versatility.

Android Developer and Software Programmer Cast IT Group • ARARAQUARA - BRA • JUNE 2015 – DECEMBER 2015

• Contributed to web projects using JSF and Java, and led developer selection for an Android project with significant impact.

• Gained deep Android development skills, integrating REST APIs and designing intuitive mobile UX.

Web Developer Bluedotsoft • SAO CARLOS - BRA • APRIL 2014 – OCTOBER 2014

• Developed a real estate management web application using JSF and Java, strengthening API design skills along the way.

• Enhanced API integration for robust, seamless frontend-backend connections.

EDUCATION

Specialization in Mobile Systems Development Federal Institute of São Paulo (IFSP) • SAO CARLOS - BRA • 2015 - 2017

Software Development in mobile platforms Android and iOS through an interdisciplinary approach, theoretical and practical.

Informatics Engineering University of Madeira (UMa) • MADEIRA - POR • 2013 - 2014

Main fields of study: Artificial Intelligence, Human Computer Interaction and Oriented Objects Programming.

Systems Analysis and Development Federal Institute of São Paulo (IFSP) • SAO CARLOS - BRA • 2010 - 2014

Main fields of study: Logic Programming, Web Development I and II, Programming Language C, COBOL and C#, Database MySQL, PostgreSQL and Oracle, Technical English and Software Engineering.

SKILLS

Mobile development: iOS, Android, React Native, Kotlin, Jetpack Compose, Expo, Kotlin Multiplatform, Compose Multiplatform, Kotlin Coroutines, Instrumented Tests, Unit tests, Accessibility, Screenshot tests, Gradle tasks and cache.

AI Tools & Automation: Claude Code, Cursor, GitHub Copilot, CodeRabbit, AI-assisted development workflows and automation for Mobile development, including code generation, review automation, and test optimization using Gemini. Developed an AI-powered end-to-end testing on Android using Koog AI.

Backend development: NodeJS, TypeScript, JavaScript, NestJS, MongoDB, SQLite, Firestore, MySQL, Supabase, PostgreSQL, Firebase, Maven, Glassfish, JasperReports.

Miscellaneous: Git, Continuous Integration tools, Github/Gitlab, Jenkins, Jira, Linux, Confluence, Jira, Coda, Solidity, Web3js, Ethereum network, Truffle, Hardhat, Metamask.
