PROFESSIONAL SUMMARY

Senior Mobile Engineer with 14+ years of experience, focused on architecture modernization and performance optimization for high-growth fintech platforms. Strong expertise in React Native and TypeScript, driving cross-platform mobile strategy across iOS and Android, and delivering high-performance applications with seamless native integration. Skilled in Kotlin, Jetpack Compose, Kotlin Coroutines, and modular MVVM architectures, with a focus on scalability, testability, and lean app size. Recognized for reducing technical debt and scaling resilient mobile systems.

CORE COMPETENCIES

React Native & TypeScript | Kotlin & Jetpack Compose | iOS & Android Native | MVVM Architecture | Fintech Platforms | AI-Assisted Development

WORK EXPERIENCE

Questrade Financial Group

May 2026 - Present

Senior Software Engineer

Calgary, CAN

- Deliver features across Android, iOS, and backend using React Native, TypeScript, and NestJS, collaborating with backend, UX, and QA in an Agile SDLC.
- Use Claude Code and Cursor daily for code generation, review automation, documentation, and workflow automation, accelerating delivery across the mobile stack.
- Drive app-wide improvements including UI facelift initiatives and architecture modernization efforts, raising code quality and maintainability.

Neo Financial

September 2020 - April 2026

Senior Mobile Engineer

Calgary, CAN

- Helped Neo Financial become one of the fastest-growing companies in Canada, achieving #1 on The Globe and Mail's 2024 Growth List.
- Led the migration from Fragments to Jetpack Compose, boosting customization, testing, and performance.
- Supported the strategic integration of React Native to expand the mobile technology stack across the organization.
- Contributed to new features, reduced technical debt, and provided mentorship as a code owner and technical approver.

Itau Bank

March 2020 - September 2020

Senior Android Developer

Sao Paulo, BRA

- Supported Itaú Unibanco, the largest private bank in Latin America with assets over $555 billion, to modernize its mobile app.
- Implemented strategic modularization using MVVM, introduced a custom design system, and improved performance by reducing app size.

LETSBANK (former SmartBank)

August 2019 - March 2020

Senior Android Developer

Sao Paulo, BRA

- Enhanced app functionality using advanced Android and Kotlin skills.
- Strengthened financial and fintech domain knowledge, bolstered app security, and expanded automated test coverage.
- Collaborated with cross-functional teams to align delivery with company objectives.

Ubby Inc.

March 2017 - February 2019

Lead Mobile Developer

San Mateo, USA / Sao Carlos, BRA

- Developed blockchain-based cashback solutions as first Android developer, designing app architecture and bridging co-founders and developers.
- Worked as blockchain developer for Like Protocol, conducting Ethereum research and training developers in smart contracts.

Monitora Soluções Tecnológicas

December 2015 - March 2017

Team Lead and Mobile Developer

Sao Carlos, BRA

- Advanced from Android developer to leadership roles, mentoring and coordinating teams across Pakistan and Malta.
- Expanded into iOS development with Objective-C and Swift.

Bluedotsoft

April 2014 - October 2014

Intern

Sao Carlos, BRA

- Led development of a property management web application using JSF and Java.
- Honed skills in API design, version control with Git, and project management tools.

EDUCATION

Specialization in Mobile Systems Development Federal Institute of São Paulo (IFSP) 2015 - 2017

Informatics Engineering University of Madeira (UMa) 2013 - 2014

Systems Analysis and Development Federal Institute of São Paulo (IFSP) 2010 - 2014
